

Visualize and Optimize Territory Alignment

Automate and optimize balanced territory alignment to uncover opportunities and increase productivity

Attracting and retaining top talent is more important than ever. To keep your sales representatives happy and successful, it's important to create efficient and fair territories. However, the ongoing design and maintenance of territories is a time consuming process if you are relying on manual tools. That's why forward-looking organizations are looking for a more efficient and effective way to maintain balanced territories.

Xactly AlignStar® utilizes an intuitive, map-based interface to enable territory planning that equips sales organizations to build and optimize balanced territories that align with company goals.

INCREASE REVENUE

Xactly AlignStar helps sales organizations to:

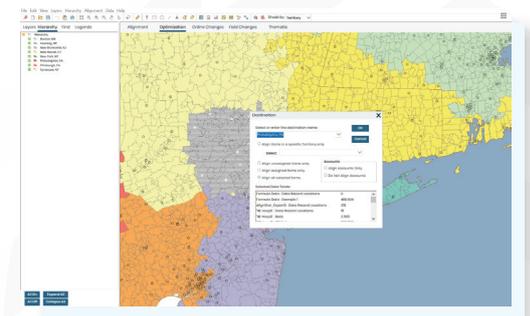

- ▶ Identify “whitespace” and “greenfield” opportunities to increase account penetration and expand your customer base.
- ▶ Optimize territory maps automatically with proprietary, advanced analytics to ensure fair and balanced territories.

LOWER COSTS

Create workload-efficient territories to:

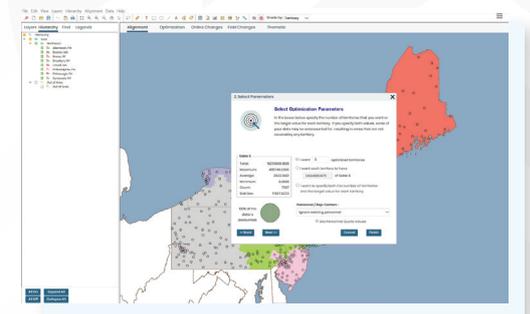

- ▶ Reduce reps' travel time and expenses, allowing them to focus on selling.
- ▶ Analyze existing alignments using geospatial visualization (e.g., choropleth and thematic maps) to balance territories, improve design and increase travel efficiency.

BOOST SALES PRODUCTIVITY

By automating territory optimization, you can reduce the time needed to align and optimize territories from several weeks to days, allowing you to:

- ▶ Design territories within minutes of gaining system access with no implementation required.
- ▶ Grade current territory alignment to ensure they are optimized for company goals.

Why Xactly AlignStar ?

Xactly understands the value of bringing together operational and intelligence capabilities to drive revenue operations success. That's why we built our [Intelligent Revenue Platform](#), enabling us to align planning, performance and prediction functions into one cohesive platform.

As part of the broader Intelligent Revenue Platform, Xactly AlignStar empowers businesses to visualize, analyze and manage territories that are fair, travel-efficient, and optimized for productivity.
